Kim O'Leary was born and raised in Rockland County and is an active member of the Nyack community. After a debilitating car accident that ended a corporate security career, she pursued her life-long passion for jewelry design and reinvented herself as a small-business woman. Kim grew and evolved with her business and in 2008, with her "partner in crime" and retired Navy spouse Charles, they founded Crystals on the Rocks. Crystals on the Rocks is a one-stop metaphysical healing shop, specializing in high-quality gemstones and minerals. Inside, you'll find everything from incense, essential oils and jewelry to gemstones, crystals and books; but what really sets them apart is their dedication to quality. Each piece is hand selected, through the most reputable network of stone vendors in the United States, in some cases from mine owners themselves. Crystals on the Rocks also hosts classes, tarot card reading nights and seasonal events (including the popular, winter "pick-a-chip" promotion!) Kim is most proud that her business serves as a welcoming and healing outlet for anyone in the community seeking peace and enlightenment. She is also always ready with a pat and a treat for any furry, four-legged shoppers who stop in!
